

# Noël

hope is in the heavens

*A Christmas musical for the whole family!*

## NOËL

VenuWorks Theatricals' debut project is the new musical, "NOËL", by world renowned creator of the Artemis Fowl series, author Eoin Colfer and movie composer, Liam Bates. It's a beautiful story of a young girl who loses her joy of performing with the disappearance of her mother. On a journey to find her, NOËL meets a motley crew of characters who want to help and in doing so they rediscover their belief in the magic of Christmas and in themselves.

NOËL made its debut to great acclaim at the National Opera House in Ireland on December 19, 2016 for a week of performances. The show had its first National U.S. Tour in 2018.

NOËL, set in modern day London, tells a heartwarming tale of a little girl (Noël), who is preparing for her starring role in a school Christmas play when her mother suddenly disappears. To avoid being taken into care, Noël keeps her mother's disappearance a secret and embarks alone on a quest to find her. Along the way, she befriends a diverse group of homeless characters, who have themselves lost their way in life; Duchess, a lady with a mysterious past; Edgar, a disabled veteran and Nick, a curmudgeon who has lost his faith in humanity. As the story progresses, we discover that Nick is indeed Santa Claus, and has become disenchanted with a world that he believes has forgotten the true meaning of Christmas. Noël's bright innocence and unwavering belief in finding her mother, inspires Nick to find joy again as he falls in love with Duchess and with life itself. Nick, Duchess and Edgar learn to embrace life once more, finding love and hope in themselves and in the world.
